

Remarkable Achievements of LEUNG Oi Man at International Equestrian Competitions

On 7 & 8 June 2016, Miss LEUNG Oi Man, a Year 2 Mechanical Engineering student, had represented Hong Kong in the Young Rider category at the **CSI-Y Tehran International Show Jumping Competition** in Iran on borrowed horses. She had competed with riders from Iran, Thailand, India, Syria and Lebanon, among others.

Oi Man won the **Silver medal in the show jumping team event** where she was teamed with an Iranian rider, and also won the **Gold medal in the individual show jumping event**, being the only competitor to finish faultless over the two rounds.

From 28 June to 2 July 2016, Oi Man was a member of the three-person team representing Hong Kong at the **11th World University Equestrian Championship (WUEC)** organized by the International University Sports Federation (FISU) in Flyinge, Sweden. Riders from 18 countries, including Belgium, Germany, Hong Kong and the Netherlands, went through a series of knock out competitions with increasing difficulty in both the dressage and show jumping events riding on borrowed horses.

Oi Man ranked **4th in the show jumping event**, beating 50 other riders.
